## PROJECTS

Children's Interactive Learning Application (Through the Lens)

Fall 2019 – Present

- Collaborated with a team of four to develop an application that brings unsupervised learning to the real world by implementing Microsoft's azure object detection
- Worked on the design and front-end portion of the project using Figma
- Currently working on polishing the app in hopes of publishing the game to Google Play Store

Nonprofit Web Development – Ombudsman

January 2020 – Present

- Working with nonprofit Ombudsman to develop a web application that can access their documentations in an efficient way
- Designed the application and engaged in design to improve user experience (UX)

State of the Art VR Rhythm Game (Agakki)

February 2020

- Collaborated with a team of four to create a full upper-body motion virtual reality rhythm game within StreamVR framework using Unity
- Used Adobe Illustrator and Adobe Photoshop for creating game designs

## LEADERSHIP

Product Designer

Bits of Good | Atlanta, GA
